

EduGenie: Google Gemini Powered Learning Assistant

8. Project Demonstration Phase

Purpose: Demonstrate EduGenie as a working educational assistant and show its main user-facing capabilities.

Phase Activities

- Run the application locally with Uvicorn and access the web interface.
- Demonstrate asking questions and displaying AI-generated answers.
- Demonstrate explanation of a selected topic.
- Demonstrate summarization of long paragraphs.
- Demonstrate generation of three quiz questions with four options each.
- Demonstrate learning recommendations from beginner to advanced level with learning resources and stepwise guidance.
- Present how EduGenie combines cloud-based intelligence with a lightweight web interface.

Project Focus: This phase is organized from the supplied EduGenie project document while retaining the requested phase name.
