

EduGenie: Google Gemini Powered Learning Assistant

7. Project Documentation Phase

Purpose: Document the system, development process, modules, setup requirements, and project outcomes.

Phase Activities

- Document prerequisites including Python, FastAPI, HTML/CSS, Gemini API key, Uvicorn, and Jinja2.
- Document the folder architecture and responsibility of each module.
- Document RESTful API endpoints and their module connections.
- Document Q&A, explanation, quiz, summary, and learning recommendation features.
- Record frontend-backend integration.
- Document project outcomes, challenges, and learning outcomes such as prompt engineering, cloud integration, user-centric design, and scalable architecture.

Project Focus: This phase is organized from the supplied EduGenie project document while retaining the requested phase name.
